QTY. OF SPLICES (Total Production pile and test pile splices):

QTY. OF TEST PILE SPLICES (if ordered separately before production pile splices)

There will be a 3-4 week gap for manufacturing and shipping if production piles are ordered after test piles are driven and lengths obtained for production pile splice manufacturing.

Price could change depending on steel and labor costs at time of order.

DELIVERY POINT IS NOT THE PROJECT LOCATION, PLEASE SPECIFY POSSIBLE PILE PRECASTER LOCATION SO WE CAN INCLUDE THE FREIGHT COST ACCURATELY.
